Invitation to participate

Survey on reading in French and public libraries among francophone minorities

Interested in reading in French? Share your experience in our survey!

Your responses will help us understand **what makes it easier or harder to access books in French in public libraries** in Canadian communities where French is a minority language (outside Quebec), **regardless of the language they use to provide services**.

Your perspective matters, even if you never go to the library!

You can participate if you are **14 or older** and you live or have lived in one of these communities. You can also participate if you use or have used a public library in one of these communities, even if you have never lived there.

The questionnaire is available in **English and French**. Allow **20 to 30 minutes** to complete it, and sometimes less depending on your responses. You can answer at your own pace, take breaks, and continue later.

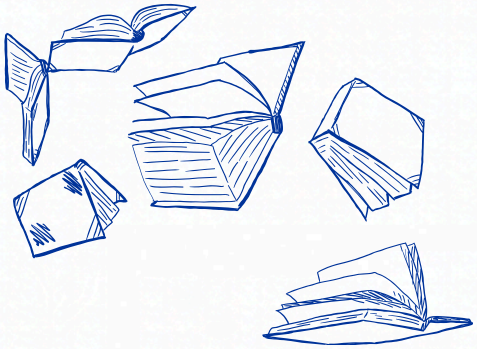

Participation is **voluntary**, and your responses will remain **confidential**. Information about the study and consent is provided at the beginning of the questionnaire.

By participating, you'll be entered into a drawing for a chance to win one of **three $50 gift cards**.
