

Groupe de Recherche et d'Innovation sur l'Organisation des Services de Santé

GRIOSS

Presentation to the Health Canada Science Colloquium
Ottawa, November 6, 2009

The launch of GRIOSS has been made possible
through a financial contribution from Health Canada

Context

Looking Back – CNFS Université de Moncton – Phase II

- 74 project proposals received financial support from the CNFS
- Support for publication/dissemination of 26 projects
- Organized an Atlantic Colloquium on health research (March 2004)
- Organized a Colloquium on the management of health services in a minority situation (March 2006)

Context

Vision – CNFS Université de Moncton – Phase III

- **To develop a strategy that will enable us to:**
 - Position the Université de Moncton;
 - Strengthen our research capacity based on teams;
 - Implement a collaborative approach;
 - Improve our research funding potential;
 - Present results that are meaningful.

Research Orientation

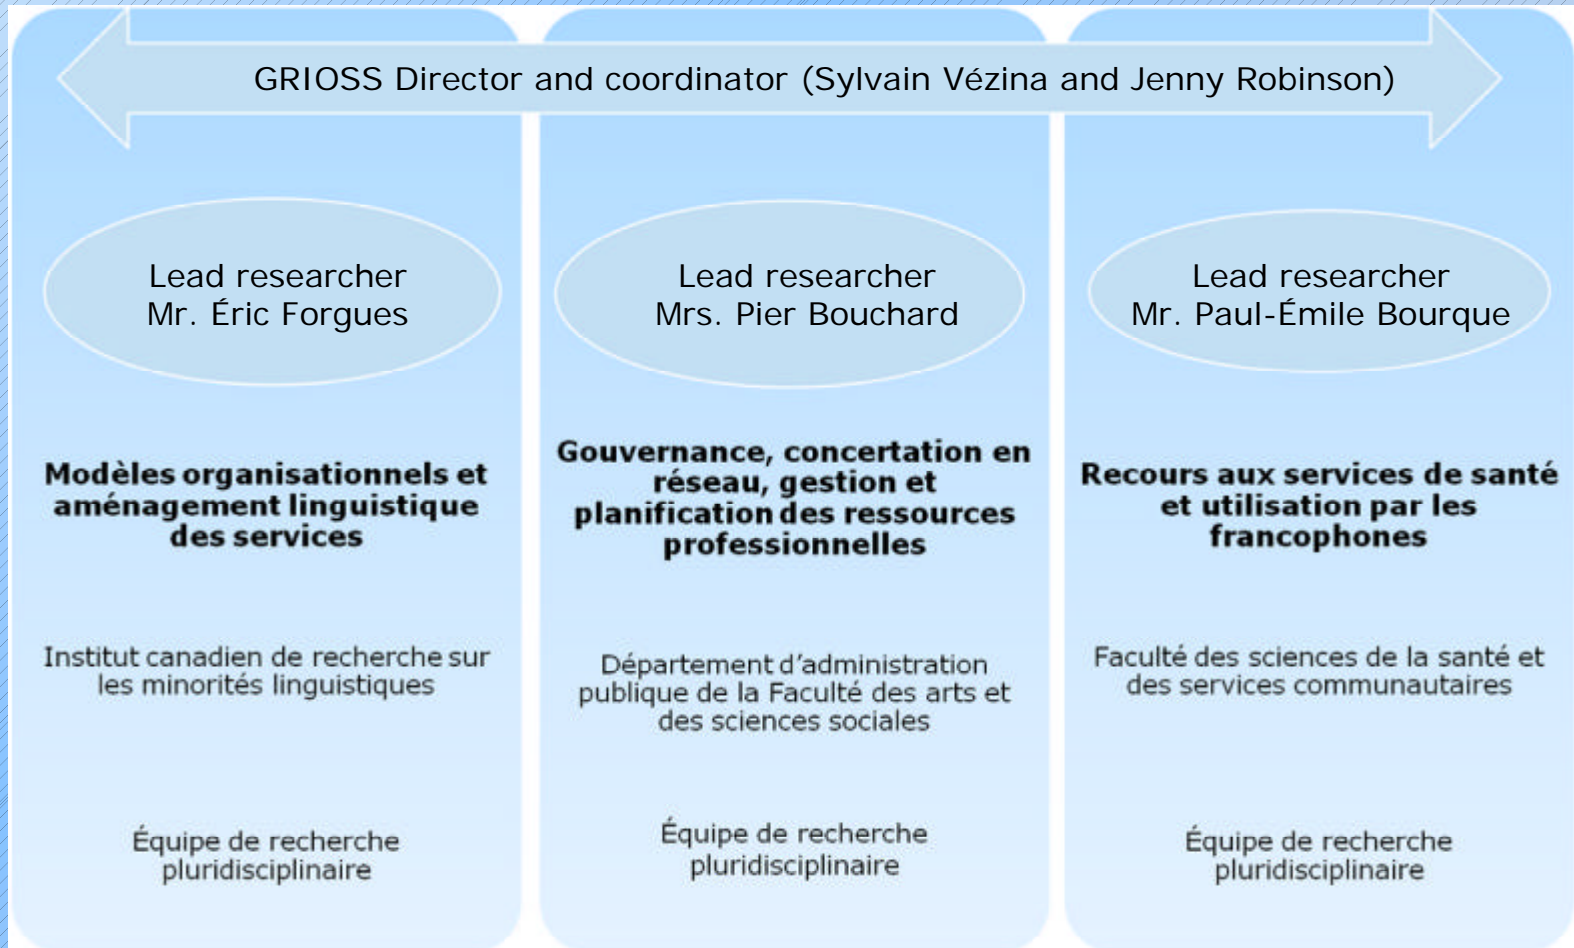

- One of the three research axes of the CNFS and its partners is: "Governance, management and delivery of health services in French;"
 - The Université de Moncton has demonstrated its leadership in this research axis since Phase II of the CNFS

Three lines of research:

- 1) Service delivery models and language-based services;
- 2) Governance, networking of health sector stakeholders, and health human resource planning;
- 3) Health services utilization by the French-speaking population.

GRIOSS Organization Chart

Management Committee

GRI OSS is not a funding agency, but rather a centre for coordination, collaboration and engagement of persons interested in contributing to the development of specific research axes.
